Program Description:

The two-year associate in science degree in Criminal Justice Technology is designed for individuals who seek a career in law enforcement, corrections, criminalistics or community-based control functions. It is also designed for people who are currently employed in those fields and want to improve their skills for career development. This program does not lead to basic certification or employability as a law enforcement or correctional officer. Completion of the Criminal Justice Standards and Training Commission Basic Recruit Academy is required for entry to those occupations.

The courses listed on this sheet are only a guide. Following these tracks does not guarantee admission into a university. Course requirements may change each year. You are responsible and encouraged to work closely with your advisor. Some courses are offered night/online only.
