Applied Technical Diploma Emergency Medical Technician

Semester 1	Credit
EMS 1158C Emergency Medical Technician	12
TOTAL	**12**

Program Description:
This program is designed for persons involved in emergency care of the sick and injured. EMT program participants have included firefighters, law enforcement officers, volunteer rescue personnel, lifeguards and those wishing to enter the EMS profession at hospitals and other healthcare agencies. Graduates may find employment in agencies such as city/ county EMS systems, private ambulance services, hospitals, clinics, physician/ doctor offices, laboratories, dialysis centers, paid and/ or volunteer fire departments, air ambulance services, home health care agencies and hyperbaric chambers. Students accepted into the program will also need to meet medical clearance criteria and pass a criminal background check and drug screen. Students who do not meet these requirements will be removed from the program.

Applied Technical Diploma:
The ATD consists of a course of study that is part of an associate in science (A.S.) or an associate in applied science degree (A.A.S.), is less than sixty (60) credit hours, is approximately fifty (50) percent of the technical component (non–general education) and leads to employment in a specific occupation. An applied technology diploma program may consist of either technical credit or college credit.
