Program Description:

The Registered Nurse to Bachelor of Science in Nursing (RN-BSN) Degree is designed for nurses who have completed an associate degree in nursing from an accredited institution and are currently licensed as a registered nurse. The RN-BSN program includes coursework and field experience in supervision, community health and nursing practice. The program will prepare nurses to pursue opportunities that require a BSN as well as prepare students to pursue advanced practice degree. Students must maintain a clear and active nursing license throughout the program. Students may be required to complete background check, drug screening and health screening prior to enrolling in NUR 4636L and NUR 4827L.

Nursing Credits required for admission (30 credits) Validated Nursing Credit- Upon successful completion of the first upper-level nursing courses 30 credits of core nursing classes will be awarded based on holding an active and clear RN License.
